## BELFOR LTD CASE STUDY

### *Customer Benefits:*

Belfor, worldwide leaders in disaster recovery and property restoration contacted us to provide Scaffolding Design and Erection services at a site in Harlow. The scaffolding went up efficiently enabling Belfor to safely access and decontaminate the roof space and ceiling of a clean room. We removed the scaffolding quickly enabling Belfor to resolve the job quickly and efficiently.

### *Customer Comments:*

“Thanks for the wonderful job you did at Harlow. I was very impressed with the service we received from the first contact when everything was explained until you left site. The scaffolding was erected with no fuss and so quickly and credit goes to you and your staff. The scaffolding was just what was required for Belfor’s task of decontaminating the roof space and the ceiling of the clean room. The dismantling procedure was even more impressive as it took next to no time. I will be recommending using yourself and your company”  
Jason Parker, Major Loss Supervisor, Belfor UK Ltd
