

## BOSTON GRAMMAR SCHOOL CASE STUDY

*Company:*

Boston Grammar School

*Service:*

Asbestos Removal

*Location:*

Boston, Lincolnshire

*Company Nature:*

Education

Boston Grammar School approached Rilmac Asbestos Services to conduct asbestos stabilisation works in the main plant room on site and a localised clean of an area where there was broken asbestos cement caused by vandals damaging outbuildings.

*Our Approach:*

Rilmac conducted a full asbestos survey of the area to determine the asbestos type and actions required. We then planned the actions required to accommodate the holiday activities taking place throughout the program of work without compromise to health and safety. We focussed on delivering the program of work to make all areas safe for re-occupation.

*Customer Benefits:*

Work was conducted to a strict program; which was planned and delivered as required and allowing the continual running of the school holiday activities.

*Customer Comments:*

“The Rilmac team were very helpful and hardworking and accommodated our needs perfectly. The removal team were professional throughout and could not have been more helpful.”

Neil White - Site Manager - Boston Grammar School
