Rilmac has vast experience within the asbestos industry as one of the first companies to be accredited with the HSE licence to remove asbestos. We have developed our extensive knowledge over the past 60 years, with our onsite operatives being trained to the highest industry standard.

Rilmac can assist through the different stages of the project, from investigation and discovery, through to removing and disposal. Our team are capable of managing any project, from domestic to large commercial or industrial. All projects are completed while maintaining full compliance and a meticulous attention to detail.

*Land remediation for housing development*

# FABRICATING YOUR IDEAS

**R Shot Blast & Painting**

Rilmac Fabrication are steel fabricators operating in the East Midlands. Our team draws upon a significant breadth of experience and skills from across a wide range of industrial sectors to provide a truly comprehensive steel fabrication service.

We can provide components from a diverse range of varying materials from carbon steels, Corten, high strength steels to ferritic and austenitic stainless

and nickel based alloys like Inconel and many others.

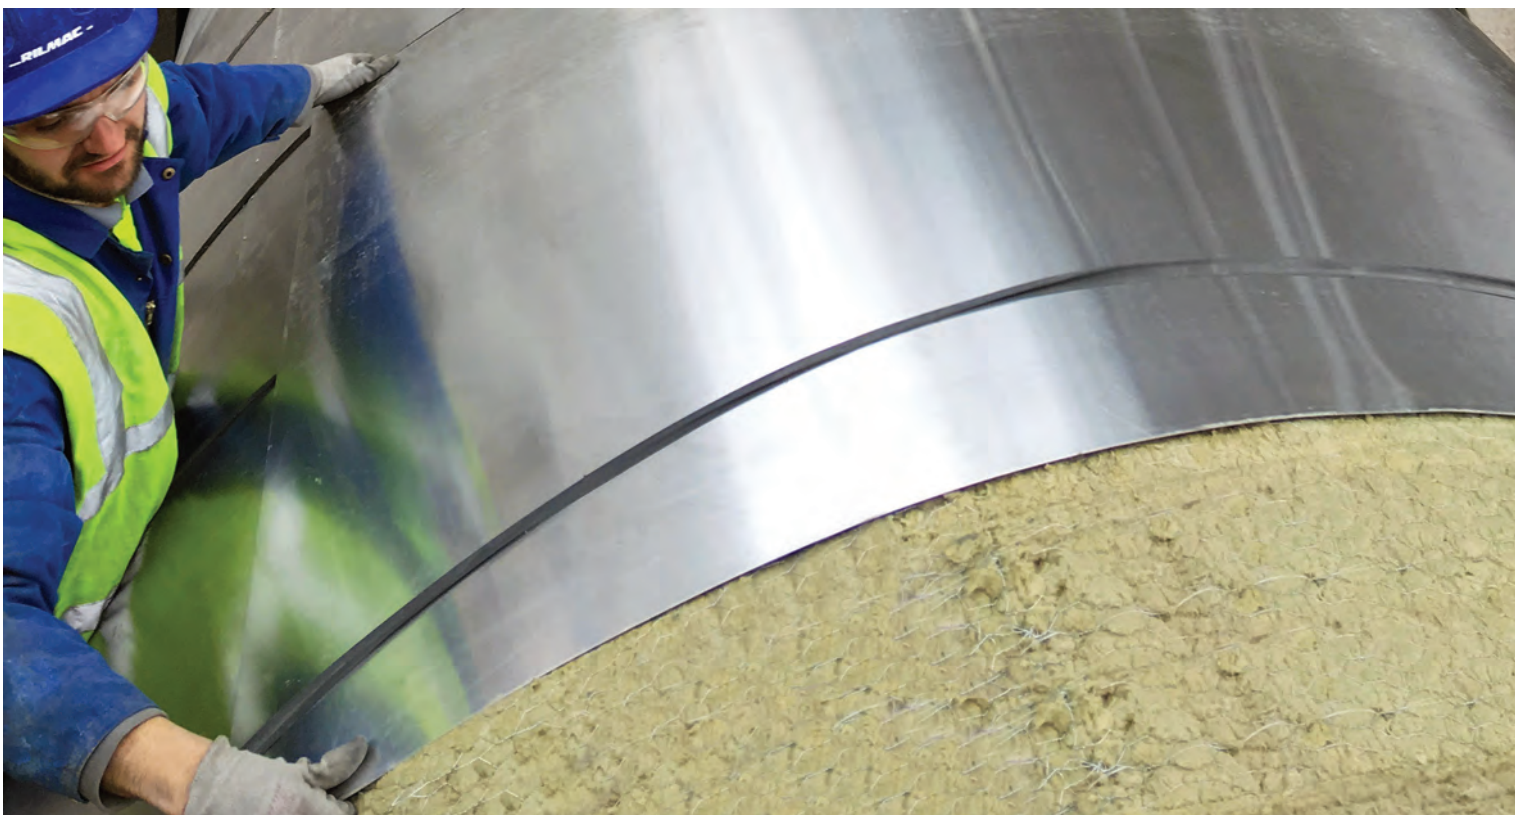

We have successfully completed projects with a range of welded materials from 0.2mm up to 400mm thick and provided finished products to off shore painting requirements such as C5M and NORSOK.
