## **RAF WATTISHAM CASE STUDY**

Rilmac Insulation Limited completed the thermal insulation of internal heating and domestic pipework services and ventilation ductwork within the proposed MTM Building at RAF Wattisham, Suffolk. On the mezzanine floor level the pipework and ductwork was insulated and clad with stucco aluminium. All pipework insulation within the plantroom areas were clad with Isogenopak. Valves and flanges were insulated with purpose made removable insulation jackets to a high standard. The Job was a success and SBS passed comment on the high level of workmanship.
